AUSTRALIA'S STABLECOIN

VERIFICATION OF AUDD RESERVES AS OF 31ST OF AUGUST 2025

This document has been prepared on behalf of AUDC Pty Ltd, whose majority shareholder is Novatti Group Ltd (ASX:NOV), a publicly listed company headquartered in Melbourne, Australia. There is a requirement to verify the amount of AUDD (Australian Dollar Stablecoin) on the blockchain against the corresponding reserve in the associated Reserve Accounts, ensuring a 1:1 backing.

The following has been prepared for the purposes of those parties requesting an assessment of the Australian Dollar reserves held on behalf of AUDC PTY LTD, the entity responsible for issuing the AUDD stablecoin. The purpose is to validate that these reserves match the total AUDD tokens circulating across the blockchains listed below as of the date above.

After a thorough examination of the financial records and reconciliations conducted by our Novatti finance and PayOps team, I am pleased to confirm that Australian dollars accurately back the AUDD stablecoin at a 1:1 ratio. The Total Reserve Accounts, being the combined sum of cash held by Banking Circle in the named account 'AUDC Reserve Account', and cash held by In1bank, and ZeroCap held on behalf of AUDC PTY LTD, have been assessed for their funds, transactions, and holdings, ensuring that they maintain an equivalent balance to the circulating AUDD tokens.

As of the date of this letter, I can confirm the following figures:

AUD Reserve Segregation		AUDD On-Chain	
Value at Banking Circle <i>Acc: XX9639</i>	\$3,902,241.22	Stellar	3,156,476.00
Value in Cash at Zerocap <i>Acc: XXXX-4e8b5a</i>	\$86,615.00	XRP Ledger	7,432.10
Value at In1bank <i>Acc: XXXX-0237 4</i>	\$252,953.00	Ethereum	665,839.00
		Solana	2,586.00
		Hedera	65
Total:	\$4,241,809.22		3,832,398.1

AUSTRALIA'S STABLECOIN

During the verification process, the following procedures were performed:

1. Reviewed statements, Statements and transaction/withdrawal records for the Reserve Accounts held in the named account 'AUDC Reserve Account' on behalf of AUDC PTY LTD.
2. Assessed the blockchain transactions and corresponding addresses linked to the AUDD stablecoin, as it pertains to the registered issuing addresses and/or contracts, including:
 - a. Stellar: [GDC7X2MXTYSAKUUGAIQ7J7RPEIM7GXSAIWFYWWH4GLNFECQVJJLB2EEU](https://stellar.expert/explorer/public/transaction/GDC7X2MXTYSAKUUGAIQ7J7RPEIM7GXSAIWFYWWH4GLNFECQVJJLB2EEU)
 - b. XRPL: [rUN5Zxt3K1AnMRJgEWywDJT8QDMMeLH5ok](https://xrpl.org/transaction/UN5Zxt3K1AnMRJgEWywDJT8QDMMeLH5ok)
 - c. Ethereum: [0x4cce605ed955295432958d8951d0b176c10720d5](https://etherscan.io/tx/0x4cce605ed955295432958d8951d0b176c10720d5)
 - d. Solana: [AUDDtiEpCydTm7joUMbYddm72jAWXZnCPZtDoxqBSw](https://solscan.io/tx/AUDDtiEpCydTm7joUMbYddm72jAWXZnCPZtDoxqBSw)
 - e. Hedera: <https://hashscan.io/mainnet/token/0.0.8317071?p=>
3. Verified the reconciliation of transactions between the Reserve Accounts and the blockchain records.
4. Conducted sample testing to validate the accuracy of the reserves and confirm the 1:1 backing.

Based on these procedures, I can affirm that the AUDD stablecoin's reserves are appropriately maintained and consistently match the number of AUDD tokens in circulation. This verification assures AUDD holders and stakeholders of the stablecoin's stability and integrity.

Please note that this verification is based on the information and documentation provided by AUDC PTY LTD and access to systems by the finance PayOps team. I have relied on the accuracy and completeness of the data provided. My assessment is not an ongoing monitoring of the AUDD reserves but represents the state of affairs as of the date of this letter.

Please do not hesitate to contact me if you require further clarification or assistance regarding this verification or related matters.

Yours sincerely,

Effie Dimitropoulos
